

What CIs and CCCE's should know about PT CPI Web

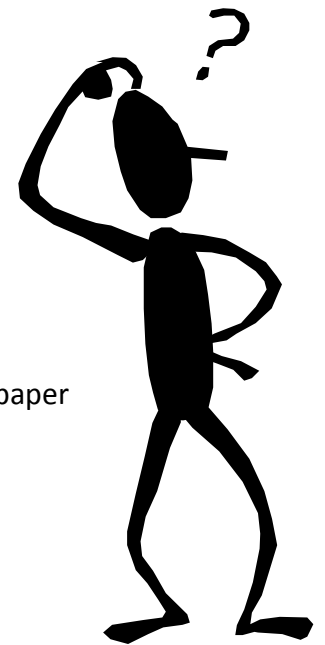

What is PT CPI Web?

The PT CPI Web allows student to self-assess their clinical performance throughout the clinical education experience, with formal documentation required at mid and final evaluation periods. The Clinical Instructor (CI) can formally evaluate the student's performance on the 18 PT performance criteria, and enter notes about the student's progress throughout the clinical experience. At the midterm and final of each clinical experience, the CI and student each have a comparative view of each others evaluation on the PT CPI.

Why Should I Use PT CPI Web?

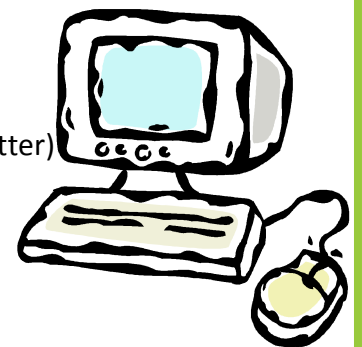

There are many benefits for CIs and CCCEs for moving to PT CPI Web:

- ◆ 18 PT performance criteria (25% fewer performance criteria to evaluate)
- ◆ Earn free **CEUs** by completing APTA's new PT CPI training (2 Contact Hours)
- ◆ Comparative view of completed student and CI PT CPIs
- ◆ All of your evaluations in one convenient place
- ◆ Complete online access, anytime, anywhere
- ◆ No cost to you
- ◆ Quickly add comments for multiple evaluations without flipping through tons of paper
- ◆ Contact your students and involved colleagues through internal messaging
- ◆ Add/Edit notes directly into the PT CPI Web and save your progress
- ◆ Easily update your personal information, certifications and credentials
- ◆ Update Clinical Site Information (CCCE's only)
- ◆ Track the progress of all student's and CI progress at your site (CCCE's only)

What do I need to start using PT CPI Web?

- ◆ A computer with internet access (Mozilla Firefox browser is preferred)
- ◆ Successful completion of APTA's PT CPI training and post-assessment (70% or better)
- ◆ An email address (either personal or professional)
- ◆ A username and password provided by an academic program

CI and CCCE FAQ's

- Q. Does PT CPI Web cost anything to clinicians or clinical sites?
A. No. There is no cost to clinicians for using PT CPI Web.
- Q. I do not have computer access. Can I access a paper copy of the PT CPI?
A. You may request a paper copy of the PT CPI from your academic program.
- Q. Can I use a personal or work email address?
A. Yes, either email address is acceptable.
- Q. Can I access PT CPI Web without taking the APTA training?
A. No, you must complete the APTA training prior to logging into PT CPI Web.
- Q. If I work with more than one academic program, will I need more than one account?
A. No, you can evaluate multiple students from different academic programs with one username and password.
- Q. How long is the APTA training?
A. The APTA training takes approximately 1 1/2 hours to complete. The training modules can be viewed at different times to accommodate busy clinicians.

How Do I Use PT CPI Web?

1. Go to www.ptcpiweb.org/login
2. Log in using your email address and password from your Academic Program
3. Start using PT CPI Web...

A tip from AMS...

If you are having issues viewing your CPI (i.e. the layout of your CPI doesn't seem right), please try using the Mozilla Firefox browser. This should fix any viewing problems you should have.

Thank you!
