Misericordia University  
Social Work Program  
Field Learning Contract

The purpose of the Senior Field Learning Contract is to provide the student and the supervisor with an opportunity to plan together the student’s field experience. The contract is flexible, but will provide mutual understanding of the expectations for the student during the semester. After carefully reviewing their Final Junior Field Evaluation, the student will take the responsibility to inform the supervisor which of the following required competencies and practice behaviors must be included in the Senior Field Learning Contract.

Through course assignments and activities, and especially through Junior and Senior Field Instruction, all students must demonstrate competency* in each of the following ten competency areas and in the forty-one practice behaviors prior to the awarding of the Bachelor of Social Work Degree.

Please return a copy of this contract to the faculty seminar leader by the third week of placement.

Agency: ____________________________________________

Date: ____________________________________________

Role that student will play this semester in the agency (outline of the progression of tasks and responsibilities anticipated):
