STUDENTS RESEARCH GRANTS

GENERAL CONDITIONS

1. The conduct of your research project must comply with all existing rules and regulations of Misericordia University regarding personal conduct in use of institutional funds and record keeping. Immediately after an award, the principal investigator will be required to contact the Office of Sponsored Research (either by email or in a letter) stating that the researcher(s) have read and agree to these terms and conditions.

2. Failure to secure necessary supporting documentation (receipts), renders the grant null and void and Misericordia University will not be held responsible for any financial commitments you make. (contact mnelson@misericordia.edu for more information regarding reimbursement for grant funds)

3. Project evaluation must take place as presented in your proposal. A final report must be submitted. The final report is due the last day of exams in the semester in which you stated you would complete your project and no later than the date of your graduation from Misericordia. Failure to submit a final report in a timely manner may jeopardize future funding of internally supported projects. Project extension can be requested when unusual or unexpected delays occur. This request is to be made to the Student Research Grants chairperson. If necessary, the Student Research Grants Committee will be convened to review the request.

4. Research projects which result in publication and/or presentation must include statements acknowledging the funding provided by Misericordia University’s Student Research Grant Program.

5. The University may request presentation of the outcomes of the project to specific interested audiences.
