For students entering 6th, 7th, or 8th grade this fall

A hands-on opportunity to learn about Occupational Therapy, Physical Therapy, Sonography, Medical Imaging, Physicians Assistant, Nursing, Speech and Language Pathology, and other health science related career fields in a fun, dynamic, and interactive summer camp. Taught by University Professors and Graduate Assistants, students will gain an understanding of these different career paths as they begin to think about their future.

Funded by an Appleseed Grant, students will use the Anatomage Virtual Dissection Table to learn basic Anatomy and Physiology, as well as basic Neurology. Students will understand the many health science fields and how they are similar and different.

August 10–14, 2015
9:00 a.m. to 3:00 p.m.
on the
Misericordia University Campus

For students entering 6th, 7th, or 8th grade this fall

A hands-on opportunity to learn about Occupational Therapy, Physical Therapy, Sonography, Medical Imaging, Physicians Assistant, Nursing, Speech and Language Pathology, and other health science related career fields in a fun, dynamic, and interactive summer camp. Taught by University Professors and Graduate Assistants, students will gain an understanding of these different career paths as they begin to think about their future.
