Waiting for Disruption: A Health Care System on the Brink

The ongoing quest to demonstrate value in health care delivery has driven providers and insurers to partner in care coordination and risk sharing. On the horizon, we find technology companies and other innovators prepared to disrupt the health care marketplace through data analytics and end-runs around physicians and pharmacists to get more services to patients directly. Are we on the brink of a new dawn in health care? If so, what could an “Amazon model” mean for consumers and legacy models that have served us since the Hill-Burton Act of the 1940s?

**Monday, February 5, 2018 • 7:30 p.m.
McGowan Room, Mary Kintz Bevevino Library**

This speaking engagement is free and open to the public.

Jenn Higgins, Partner at Chamber Hill Strategies, has a reputation in Washington for being an expert on health policy who gets things done. Jenn has spent the past ten years using that tenacity and policy knowledge to help corporate executives navigate a constantly changing legislative and regulatory landscape.

During her tenure in Washington, Jenn has represented a wide variety of Fortune 500 companies before Congress and the Administration, serving as Principal and Partner with two prominent lobbying firms, as well as advising senior agency officials at the Centers for Medicare & Medicaid

Services. Jenn has spent the past twelve years cultivating relationships with key Republican members within the House Ways and Means Committee and Senate Finance Committee, due to their primary jurisdiction on health care and tax issues. Her work with House Republican leadership has also facilitated direct access for clients to the key decision makers in the health care, tax, and aviation space.

Jenn attended Davidson College where she received a B.A. in Medical Economics and Ethics. She also holds a Certificate in Legislative Studies from Georgetown University's Government Affairs Institute.
