

Connecting a Gaming Device to the Wired/Wireless Network

1. All gaming devices need to be registered on the My Devices portal before connecting them to the wired or wireless network.
2. The My Devices portal is: <https://mydevices.ise.misericordia.edu:8443/mydevices/>
3. Once the gaming device is registered you will be able to successfully connect to the Internet via a wired port in the residence halls. Just plug the gaming device into a port using an Ethernet cable.
4. If you are connecting the gaming device to the wireless network you will need to connect to the **Cougars-PSK** network.
5. The security information for this network is WPA-PSK/WPA2-PSK. The password for this network is N0w!resMU

Instructions on how to register your devices on the My Devices Portal are available at www.misericordia.edu/network.
